

STUDENT NAME: _____

DATE: _____

SECTION: _____

MARKS OBTAINED: _____

Section A: Multiple Choice Questions (1 mark each)

1. Which of the following is NOT a feature of OpenShot video editor?
 - a. Chroma key effect
 - b. 3D animation
 - c. Transition effects
 - d. Keyframe animation
2. In Python, which of the following is the correct way to add a single-line comment?
 - a. // This is a comment
 - b. /* This is a comment */
 - c. # This is a comment
 - d. -- This is a comment
3. Look at the following Python code.

```
print("Hello\nWorld")
```

What does it do?
 - a. Prints "Hello World" on one line
 - b. Prints "Hello" and "World" on separate lines
 - c. Prints "HelloWorld" on one line
 - d. Results in an error message
4. What does the `math.floor()` function in Python do?
 - a. Rounds a number up to the nearest integer
 - b. Rounds a number down to the nearest integer
 - c. Returns the absolute value of a number
 - d. Returns the square root of a number
5. In the Turtle graphics library, what does the `penup()` function do?
 - a. Moves the turtle upwards
 - b. Lifts the pen off the screen so the turtle can move without drawing
 - c. Increases the pen size
 - d. Changes the pen color to a lighter shade

Section B: Fill in the Blanks (1 mark each)

1. In OpenShot, the _____ effect is used to remove the background of a video clip.
2. In Python, the process of converting data from one type to another is called _____.
3. The _____ module in Python provides functions for generating random numbers and making random choices.
4. In Python's Turtle graphics, the _____ function is used to set the turtle's orientation to a specific angle.
5. The _____ function in Turtle graphics is used to write text on the screen at the turtle's current position.

Section C: Short Answer Questions (1 marks each)

1. What is the purpose of commenting in a Python program?
2. Explain what a module is in Python.
3. What is the difference between `print(5+3)` and `print("5+3")` in Python?
4. In OpenShot, what is the purpose of the chroma key effect?
5. What is the main advantage of using the Turtle graphics library for beginners learning Python?

Section D: Long Answer Questions (5 marks , choose only 1)

1. Explain the process of adding transitions between clips in OpenShot video editor. Include the steps involved and why transitions are important in video editing.
2. Describe how you would use Python's Turtle graphics to draw a simple house shape. Include the main functions you would use and how you would structure your code.
